

BE THE FUTURE

TASH Annual Conference

WASHINGTON DC

December 3-5, 2014

Research

For nearly 40 years, the TASH Conference has impacted the disability field by connecting attendees to innovative information and resources, facilitating connections between stakeholders in the disability movement, and helping attendees reignite their passion for the full inclusion of people with disabilities in all aspects of life.

Shortly after its inception, TASH began holding annual meetings, mainly with presentations by **researchers**. Today, the TASH Annual Conference continues this decades-long tradition by offering attendees a plethora of innovative research presentations in areas such as, inclusive practices, instruction, personnel preparation, employment, transition, self-determination, communication, PBIS, assistive technology, parent engagement, and more!

Attendees will also have the opportunity to:

- **Shape the research agenda for the next several years**
- **Discuss issues and advances in the field with federal partners in four Town Hall sessions**
- **Engage in a rich environment for comparing notes, solving problems, and developing new collaborations**
- **Participate in the launch of two new important TASH programs: TASH Professor Program and Early Researcher Network!**
- **And much more!**

“As a researcher, I look forward to the TASH Conference to learn about current studies and practices and policies relating to research. Also, the opportunities the conference provides to meet with colleagues have been invaluable.”

Marty Agran, TASH Board Member
