## TASH Annual Conference

# WASHINGTON DC

December 3-5, 2014

## Supported Living

For nearly 40 years, the TASH Conference has impacted the disability field by connecting attendees to innovative information and resources, facilitating connections between stakeholders in the disability movement, and helping attendees reignite their passion for the full inclusion of people with disabilities in all aspects of life.

In support of the international movement of people with disabilities, TASH seeks government policies and funding for services and support for all people with disabilities. While support most often comes from families, friends, neighbors, and citizens, some support may also be necessary from public sources. At the 2014 TASH Conference, attendees will learn how supports must give the people receiving them control over all aspects of their life.
